Publication Date: June 2020
ISSN: 2717-6398 E-ISSN: 2681-5164
International scientific journal published quarterly.
Aims and Scope

Turkderm - Turkish Archives of Dermatology and Venereology (Formerly Turkderm- Archives of the Turkish Dermatology and Venereology) is the official journal of the Society of Dermatology and Venereology. This editorially independent, unbiased, international journal periodically publishes peer-reviewed work in all areas of dermatology and venereology. Publication languages are Turkish and English. The journal is published in English since December issue of 2016 as an e-journal. The journal is published quarterly in March, June, September and December with 1 or 2 supplement issues in June and December.

The target audience of Turkderm - Turkish Archives of Dermatology and Venereology is specialists and resident physicians in dermatology and venereology.

Articles in Turkish or English are both accepted for publication in print with the understanding that an English version is provided for the online publication prior to the final acceptance of the article. A Turkish version is not requested for articles submitted in English.

The editorial policies are based on the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals (ICMJE Recommendations)” by the International Committee of Medical Journal Editors (2016, archived at http://www.icmje.org/7r) rules.

Turkderm - Turkish Archives of Dermatology and Venereology is indexed in Web of Science-Emerging Sources Citation Index (ESCI), Hinari, GOALL, ARDI, OARE, Excerpta Medica/EMBASE, EBSCO Database, CINAHL, Index Copernicus, DOAJ, Scopus, ProQuest, British Library, J-Gate, IdeaOnline, ROOT INDEXING, Turkish Medline-National Citation Index, Turkije Citation Index and TUBITAK/ULAKBIM.

The journal has been indexed in Web of Science; Science Citation Index-Expanded (SCIE) in between 2008-2014. Since 2015, the journal is indexed in the Emerging Sources Citation Index (ESCI) in the Web of Science.

Open Access Policy

This journal provides immediate open access to its content on the principle that making research freely available to the public supports a greater global exchange of knowledge.

Open Access Policy is based on the rules of the Budapest Open Access Initiative (BOAI) http://www.budapestopenaccessinitiative.org/. By “open access” to peer-reviewed research literature, we mean its free availability on the public internet, permitting anyone to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or use them for any other lawful purpose, without financial, legal, or technical barriers other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give authors control over the integrity of their work and the right to be properly acknowledged and cited.

This journal is licensed under a Creative Commons 3.0 International License.

Permission Requests

Permission required for use any published under CC-BY-NC license with commercial purposes (selling, etc.) to protect copyright owner and author rights. Reproduction and reproduction of images or tables in any published material should be done with proper citation of source providing authors names; article title; journal title, year (volume) and page of publication; copyright year of the article.

Instructions for Authors

Instructions for authors are published in the journal and on the web page www.turkderm.org.tr

Material Disclaimer

In all articles published in Turkderm - Turkish Archives of Dermatology and Venereology the author (authors) is responsible for his/her opinion. The editor, editorial board and publisher do not accept any responsibility for the articles.

Financial expenses of the journal are covered by Society of Dermatology and Venereology.

Subscription Information

Turkderm - Turkish Archives of Dermatology and Venereology is sent free of charge to dermatologists and academicians in our country. All published volumes can be reached free of charge in full text through the web site www.turkderm.org.tr. Dermatologists wishing to subscribe to the journal should contact the Society of Dermatology and Venereology.

With the written permission of the Society of Dermatology and Venereology the publishing rights for photographs and figures printed in Turkderm are the property of Galenos Publishing House Industry and Marketing Company Ltd. Photographs and figures may not be used, microfilmed, or reproduced by duplication or any other technique without obtaining prior permission. Responsibility for notices and advertisements lies with the notice/advertisement owners. Turkderm is committed to abide by the principles of the publishing profession. The journal is printed on an acid-free paper.
Instruction to Authors

1. The Turkderm “Turkderm - Turkish Archives of Dermatology and Venereology” (Formerly Turkderm - Turkish Archives of Dermatology and Venereology) journal is published by the Society of Dermatovenerology in four issues (March, June, September, and December) each year. Turkderm is an independent international periodical journal based on double-blind peer-review principle.

Articles in Turkish or English are both accepted for publication in print with the understanding that an English version is provided for the online publication prior to the final acceptance of the article. A Turkish version is not requested for articles submitted in English. Turkderm does not charge any article submission or processing charges.

2. Aim of the journal: The journal issues include original reports of research in dermatology, case reports, invited reviews, abstracts, literature summaries, news, biographies and articles on medical history.

3. The journal publishes articles both in Turkish and English.

4. The journal should be abbreviated as Turkderm-Türk Arch Dermatol Venerol when referenced.

5. The editors and the editorial board of the journal have the authority to decide not to publish articles, return it to the author for correction or make corrections on format, according to the reports of the reviewers of the publishing consultant board. A manuscript will be considered only with the understanding that it is an original contribution that has not been published elsewhere.

6. The manuscripts format should be in accordance with Uniform Requirements for Manuscripts Submitted to Biomedical Journals: Writing and Editing for Biomedical Publication (available at http://www.icmje.org/)

7. The scientific and ethical liability of the manuscripts belongs to the authors and the copyright of the manuscripts belongs to the Turkderm. Authors are responsible for the contents of the manuscript and accuracy of the references. All manuscripts submitted for publication must be accompanied by the Copyright Transfer Form (copyright transfer). Once this form is signed by all the authors, it has been submitted, it is understood that neither the manuscript nor the data it contains have been submitted elsewhere or previously published and authors declare the statement of scientific contributions and responsibilities of all authors.

8. All authors must approve the publication by a collective signature indicating their scientific contributions and responsibilities as well as absence of conflict of interests. Institutions, organizations, and companies of pharmaceuticals and materials contributing by allowances in money or in kind, even if only partial, should be quoted in a footnote.

9. For the experimental, clinical and drug studies having the obligation of being approved by ethical committee and being sent in order to be published in the Turkderm - Turkish Archives of Dermatology and Venerology journal, ethical committee approval report being in accordance with the international agreements with Helsinki Declaration revised 2013 is required (https://www.wma.net/policies-post/wma-declaration-of-helsinki-ethical-principles-for-medical-research-involving-human-subjects/). In experimental animal studies, the authors should indicate that the procedures followed were in accordance with animal rights (Guide for the care and use of laboratory animals. www.nap.edu/catalog/5140.html) and they should obtain animal ethics committee approval. In articles concerning experimental research on humans, detailed description of procedures conducted should be included and patient/volunteer informed consent forms should be obtained. Informed consent forms are also necessary for case reports and they should be sent to the journal along with the article. Ethical committee approval (including approval number) and the “informed consent” given by the patients should be indicated in the “Methods” section. Authors should declare any competing interests that might have influenced the preparation of the manuscript.

10. The author must obtain written permission from the copyright holders for pictures, figures, graphics, and tables and indicate this within the text.

11. A Scientific Ethical Board report is required for pharmacological studies.

12. Manuscripts are screened for plagiarism using the “Ithenticate” software before publication.

9.1. Preparation of research articles, systematic reviews and meta-analyses must comply with study design guidelines:

9.5. STROBE statement, a checklist of items that should be included in reports of observational studies (http://www.strobe-statement.org/).

10. General Guidelines

10.1. Manuscripts can only be submitted electronically through the Journal Agent website (http://www.journalagent.com/turkderm/?lng=en) after creating an account. This system allows online submission and review. You may follow your article online. The manuscripts are archived according to ICMJE, Index Medicus (Medline/PubMed) and Ulakbim Turkish Medicine Index Rules.

10.2. The titles of the articles should be brief and clear, consisting of a maximum eight words, not including conjunction words. Keywords in English and Turkish should be provided on the left upper part of the page above the title to facilitate indexing.

10.3. Author information should enter the system only while registering the summary. The electronic files to be uploaded to the system (full text, references, etc.) should in no way include the name and surname of the author.

11. Manuscript Types

11.1. Original Article

Includes clinical research, clinical observation, new methods, and experimental and laboratory studies. Research articles should include title, abstract, keywords related with main topic of the study, findings, discussion, acknowledgements, references, tables, graphs, and pictures. Title, abstract, and keywords should be both in Turkish and English.

11.2. Abstract: A summary of the manuscript should be written in both Turkish and English and not exceed 300 words. References should not be cited in the abstract. Use of abbreviations should be avoided as much as possible; if any abbreviations are used, they must be taken into consideration independently of the abbreviations used in the text.

The abstracts in English should include the following paragraphs: Background and design, results, conclusions, other important observations, the name and surname of the author.

11.3. For original articles, the structured abstract should include the following subheadings: Objective, Methods, Results, Conclusion.

Materials and Methods: The study and standard criteria used should be defined; it should also be indicated whether the study is randomized or not, whether it is retrospective or prospective, and the statistical methods applied should be indicated, if applicable.

Results: The detailed results of the study should be given and the statistical significance level should be indicated.

Conclusion: Should summarize the results of the study, the clinical applicability of the results should be defined, and the favorable and unfavorable aspects should be declared.
Instruction to Authors

Keywords: A list of minimum 3, but no more than 5 keywords must follow the abstract. Key words in English should be consistent with “Medical Subject Headings (MeSH)” (www.nlm.nih.gov/mesh/MeshHome.html). Turkish keywords should be direct translations of the terms in MeSH.

11.4. Original research articles should have the following sections:

Introduction: Should consist of a brief explanation of the topic and indicate the objective of the study, supported by information from the literature.

Materials and Methods: The study plan should be clearly described, indicating whether the study is randomized or not, whether it is retrospective or prospective, the number of trials, the characteristics, and the statistical methods used.

Results: The results of the study should be stated, with tables/figures given in numerical order; the results should be evaluated according to the statistical analysis methods applied. See General Guidelines for details about the preparation of visual material.

Discussion: The study results should be discussed in terms of their favorable and unfavorable aspects and they should be compared with the literature. The conclusion of the study should be highlighted.

Study Limitations: Limitations of the study should be discussed. In addition, an evaluation of the implications of the obtained findings/results for future research should be outlined.

Conclusion: The conclusion of the study should be highlighted.

Acknowledgements: Any technical or financial support or editorial contributions (statistical analysis, English/Turkish evaluation) towards the study should appear at the end of the article.

References: Articles are written to summarize the current state of understanding on a topic in the field of dermatology and venereology with an unbiased and comprehensive perspective. Reviews to be considered for publication should be written by authors having previously published manuscripts in the peer reviewed journals and proving their qualified expertise in the area. Authors considering the submission of a review article should consist of a short introduction, followed by a definition of the problem, reports of pictures and figures that constitute hints, the definite diagnosis and a very brief discussion.

11.8. Review

Reviews: Articles are written to summarize the current state of understanding on a topic in the field of dermatology and venereology with an unbiased and comprehensive perspective. Reviews to be considered for publication should be written by authors having previously published manuscripts in the peer reviewed journals and proving their qualified expertise in the area. Authors considering the submission of a review article should contact the editors in advance to determine if the topic is of interest to the journal.

12.1. Images

Images (pictures) should be numbered and include a brief title. Permission to reproduce pictures that were published elsewhere must be included. All pictures should be of the highest quality possible, in JPEG format, and at a minimum resolution of 300 dpi.

12.2. Tables, Graphics, Figures

All tables, graphics, figures should be enumerated according to their sequence within the text and a brief descriptive caption should be written in Arabic numbers. Any abbreviations used should be defined in the accompanying legend. Tables in particular should be explanatory and facilitate readers’ understanding of the manuscript, and should not repeat data presented in the main text.

The number of tables should not exceed three, and the number of lines should not exceed 10 lines excluding the heading. They should only include horizontal lines; no vertical lines should be included. If the author insists on publishing more than three tables, every extra table shall be subject to payment.

13. References

Authors are solely responsible for the accuracy of all references. In-text citations: References should be indicated as a superscript immediately after the period/full stop of the relevant sentence. If the author(s) of a reference is/are indicated at the beginning of the sentence, this reference should be written as a superscript immediately after the author’s name. If relevant research has been conducted in Turkey or by Turkish investigators, these studies should be given priority while citing the literature.

Presentations presented in congresses, unpublished manuscripts, theses, Internet addresses, and personal interviews or experiences should not be indicated as references. If such references are used, they should be indicated in parentheses at the end of the relevant sentence in the text, without reference number and written in full, in order to clarify their nature.

References section: References should be numbered consecutively in the order in which they are first mentioned in the text. All authors should be listed regardless of number. The titles of journals should be abbreviated according to the style used in the Index Medicus.

The following format should be especially taken into account for references:

13.1. Journals: 1) Initials of the surname and name of the author (colon); 2) Title of the article (only the first letter should be capital) (dot); 3) Title of the journal or its abbreviation in Index Medicus; 4) Date of publishing (semi-colon); 5) Volume number (arabic) (colon); 6) First page (hyphen) last page (dot).

13.2. Books: a) If the whole book is written by the same author(s):

1) Name of the author (as in journal) (colon); 2) Title of the book (dot); 3) (If any) Edition (dot); 4) Publishing city, (Only the first, if more than one) (comma); 5) Date of publishing (semi-colon); 6) First page (hyphen) last page (dot).

13.3. Book Section: b) If the editor and author of the chapter are different:

1) Name of the author (as in journal) (colon); 2) Title of the chapter (as in journal) (dot); 3) Title of the book (dot); 4) (Following e-book (dot)) of editor(s) (dot); 5) (If any) Edition (dot); 6) Publishing city (comma); 7) Publishing house (comma); 8) Year of publishing (semi-colon); 9) First page (hyphen) last page of the chapter used (dot).

The article will be sent back to its author immediately if these conditions are not met. The Copyright Transfer Form signed by all authors and photograph(s), if any, should be sent to semerdin@turkderm.org.tr upon the acceptance of your article.
## Original Investigations

41  **Changes in the expression pattern of epidermal stem cell markers in acute and chronic psoriatic lesions**  
Osman Köse, Murat Demiriz; Ankara, Turkey

46  **Evaluation of cutaneous manifestations in patients under treatment with thyroid disease**  
Ersoy Asey, Esra Ağaçlıoğlu, Gökşin Yorulmaz, Hilal Kaya Erdoğan, Elf Sevil Alagüney, Zeynep Nurhan Saraçoğlu, Muazaffet Bilgin; Eskişehir, Turkey

51  **Epidemiological evaluation of non-melanoma skin cancer according to body distribution**  
Soysal Baş, Şafak Çakır, Yunus Ertaş, Fatih İrmak, Ayşin Karasoy Yeşilada; İstanbul, Turkey

## Case Reports

58  **Elephantiasis nostras verrucosa associated with chronic constipation in a low-weight patient**  
Çağrı Turan, İlş Gögem İmren, Sonay Aydın, Pınar Çelepli, Hâtice Meral Ekşiçioğlu; Ankara, Turkey

62  **A challenging diagnosis: Recurrent nevus or melanoma**  
Gonca Elçin, Sema Koç Yıldırım, Özyay Gököz, Sibel Doğan Günaydın, Önder Bozdoğan, Harald Kittler; Ankara, Afyonkarahisar, Vienna, Turkey, Austria

66  **Ibrutinib-associated hematoma and ecchymosis in a patient with basal cell carcinoma who underwent Mohs micrographic surgery**  
Sema Koç Yıldırım, Gonca Elçin, Serdar Özer, Özyay Gököz; Afyonkarahisar, Ankara, Turkey

## Letter to the Editor

69  **Acute generalized exanthematous pustulosis induced by hydroxychloroquine associated with human leukocyte antigen-B51 (HLA-B51), DR1101,04, DQ03,05, and for the first time in the literature with HLA-B15**  
Eleni Klimi; Athens, Greece

71  **Recommendations on the use of systemic treatments for urticaria and atopic dermatitis during the COVID-19 pandemic: Statement of Dermatoallergy Working Group of the Turkish Society of Dermatology**
